

RECOMMENDATION LETTER

Date: _15/10/2020 _____

To Whom It May Concern:

I am privileged to write in support of my student Abdulrahman Aleid (201800290). He studied in my Data structures class, during which time I witnessed his ambitious growth and development. This development came not only in the area of programming, but in maturity and character as well.

Abdulrahman quickly learned to manage the different concepts and ideas we discussed in class, in addition to working as an individual and in group situations under strict deadlines. He is a dedicated and hardworking student, with a strong work ethic and intellectual integrity.

Despite the sometimes difficult and novel concepts he had to deal with, his strong ambition and work discipline allowed him to finish in the top 3% of his class. His desire to acquire new knowledge in data structures drives him to continue his studies with the BS program.

He accomplished the objectives of our class, and I am certain he will continue to do so as he grows during other courses in BS program. This is why I eagerly encourage and support him in this application.

Please do not hesitate to contact me for further information.

Kindest regards.
