To Whom It May Concern:

I am writing in enthusiastic support of Mr. Abdulrahman Emad S Aleid for his quest to undertake Assessment II at your institution. I have known Abdulrahman for two semesters since he took with me one course before, and this semester, he is taking another course. His performance in both courses is quite well. After reviewing his transcript, I was not surprised to see that he has performed consistently well in all other courses as demonstrated by high GPA of 3.97/4!

Abdulrahman's academic accomplishment only scratches the surface of his ability and character. He is the type of person who loves learning. He's one of those rare people who works very hard and diligently, but does so with a smile on his face. He is a scientific humanist, with a genuine caring for others. It should come as no surprise that Abdulrahman is well-liked and admired by his peers.

In short, Abdelrahman's high caliber of character and keen Computer Science expertise set him well above others at his level of education. I highly recommend him to join your institution.

Regards,

Khaled Fawagreh
